

Changes to 410 IAC 1-6-7.1 from Preliminary Adoption to Final Adoption

1. Section 7 (a) (1) was changed to move the words “information and counseling” to the beginning, added the word “regarding” and added “standard licensed diagnostic test for HIV.” These additions better match the Indiana Code and clarify the need for counseling.
2. Section 7 (c) [now Section 7 (b)] was changed to clarify that there is no need for separate, written consent for HIV testing by the pregnant woman. It now states, “(b) Signature by the patient acknowledging that she has been provided with the items described in subsection (a) is not necessary.” Based upon comments by Drs. Cox and Osterholzer.
3. Section 7 (b) [now Section 7 (c)] was renumbered to reflect the change resulting from #2 above.
